The "IAML Toolbox"

Independent from the annual conferences, which only a few of us are able to attend, we like to be more visible to all our colleagues around the world and improve their participation too.

That's why we have started the [IAML Toolbox](#), as an interactive centre for communication for all of us, a way to exchange our knowledge and present projects undertaken elsewhere, that may be of interest to all. All our colleagues can participate and share their competences in the IAML Toolbox.

At this moment we ask for cooperation for [the research project on music librarians education by Mari Itoh](#) (Japan), and the

'[LOOK-a-LIKE-LIBRARY-LOCATOR](#)' by Hanneke Kuiper (The Netherlands).

This project is meant as a first step to make it possible to share your questions, information and ideas with a possible look-a-like library, without having met the colleague involved.

Are you interested? Please contact the officers!

IAML Toolbox Look-a-Like-Library-Locator

A project for all librarians in Public Libraries

Introduction

IAML is all about sharing. Sharing information, visions, problems and solutions. The way we do that usually, is depending on personal contacts and possibilities like 'can I join the conference next year', will you be there as well? Especially in the Public Libraries Branch it is not so common to be able to attend an international conference, let alone, participate each year. In our time things are quite different from the early years in IAML. We can now easily keep in touch and join activities on a national or international level by using the computer. But it still takes time to get to know each other and find the right partners with whom you can share your ideas.
